Who we are?

Noor Educational and Capacity Development Organization (NECDO) is a non-governmental, impartial and non-political organization, registered with Ministry of Economy in 2002 with INO.95. NECDO was established in January 2001 by a group of volunteers to help and support needy Afghan women, youth, and children when the Afghan nation was passing through time-tested moments of its history in Peshawar Afghan Refugee Camps. The destructive civil war resulted in material and spiritual losses for the nation. NECDO started its activities with little means, but greatness of purpose, which was based on humanitarian and development assistance. We believe that unity, faith, proper mobilization of youth & empowerment of Afghan communities can reduce the miseries of the Afghan nation. During our social activities in camps, we realized the need for education, capacity building and income generation projects in order to help our nation with sustainable development; especially educating Afghan women, youth, and children were the priorities set forth; with the believe that it is better to light a candle rather than curse the darkness we initiated several projects and implemented them successfully.

What is Batik?

Batik is both an art and a craft, which is becoming more popular and well known in the West as a wonderfully creative medium. The art of decorating cloth in this way, using wax and dye, has been practiced for centuries. In Java, Indonesia, batik is part of an ancient tradition, and some of the finest batik cloth in the world is still made there. The word batik originates from the Javanese *tick* and means to dot.

To make batik, selected areas of the cloth are blocked out by brushing or drawing hot wax over them, and the cloth is then dyed. The parts covered in wax resist the dye and remain the original color. This process of waxing and dyeing can be repeated to create more elaborate and colorful designs. After the final dyeing the wax is removed and the cloth is ready for wearing or showing.

Contemporary batik, while owing much to the past, is markedly different from the more traditional and formal styles. For example, the artist may use etching, discharge dyeing, stencils, different tools for waxing and dyeing, wax recipes with different resist values and work with silk, cotton, wool, leather, paper or even wood and ceramics.

Batik is historically the most expressive and subtle of the resist methods. The ever widening range of techniques available offers the artist the opportunity to explore a unique process in a flexible and exciting way.

Batik workshop

The Batik workshop was held on 21th of August of 2016 at Zainab Hall of the Ministry of Women Affairs. 60 businesswomen and five active employee of NECDO participated in this program. NECDO employees were actively took part in the answering question and sharing their ideas they got some prizes and due to their active participation they invited them to another program at the Kabul intercontinental hotel to present there work .
